

Pattern: B20

Example Ratio

$$6 \times 12 = 50\%$$

$$12 \times 12 = 50\%$$

This ratio also works for: (8 x 16, 16 x 16) (9 x 18, 18 x 18) (12 x 24, 24 x 24)

PLEASE NOTE: Please order appropriate quantities in accordance with the pattern and after consulting with your installer. Tile America is not responsible for any overages or shortages that may occur from applying this pattern.
